## C++ Standards Committee Meeting

August, 2<sup>nd</sup> – 7<sup>th</sup> 2010

The meeting will be held at the  
University of Applied Sciences, HSR Rapperswil, Switzerland

HSR Rapperswil and IFS Institute for Software invite you to the C++ Standards Committee Meeting at the picturesque shore of Lake Zurich.

HSR is a university of applied sciences with about 1000 students – one third of them studying informatics. The campus will provide the meeting facilities. Please check the information panels at building entrances for the location of the meeting rooms. We are planning two social events, so please register via email with [jutta.heidecke@hsr.ch](mailto:jutta.heidecke@hsr.ch) and provide her with the number of persons visiting.

### Getting There

#### Airport

The closest airport is Zurich Airport (ZRH). For information about flights and possible connections check out <http://www.zurich-airport.com/>

Zurich is well connected with the rest of the world. Swiss International Airlines probably is the most convenient carrier for Zurich.

### By Train

Public transportation is excellent in Switzerland. So we recommend that you use the train from the airport. There are several frequent connections that take you to Rapperswil within an hour. The easiest is to get a train to Zurich main station (Zürich HB) and then take the lines S7, S5 or S15 to Rapperswil/SG. Please note, that you should NOT choose Rapperswil/BE when buying a ticket at one of the vending machines. The fare is CHF 15.40 one way, or up to CHF 30.80 for a day pass.

### By Boat

There is a regular schedule of cruise boats from Zurich, Bürkliplatz to Rapperswil that you can also use with your train ticket. For departure times see <http://www.zsg.ch>

### By Car/ Parking

The nearest public parking for HSR Rapperswil is within 10 minutes walking distance at Oberseestrasse (see Rapperswil's parking guide system).

## Hotels
